

For more information, call 434-2327
www.ChildrensDentalNetwork.org

Children's Dental Network, funded since 1993 by the Alexander Eastman Foundation, offers in-school dental services during the 2016-17 school year.

If your student visits a dentist routinely, do not respond.

IF your preschool – 8th grade student is not able to receive preventive dental treatments and you would like him/her to be treated at school, complete, sign the reverse, and **return this form promptly. Send to school nurse OR mail to CDN's business office: Children's Dental Network, Derry Village School, 28 S. Main St., Derry, NH 03038.**

Children's Dental Network provides cleanings, topical fluoride varnish, sealants, decay-stopping fluoride treatments and temporary fillings. There is no drilling. Sealants are coatings that help prevent cavities on the chewing surfaces of teeth. Decay-stopping fluoride treatments, for back teeth only, help stop a cavity from getting bigger and make it feel better. You can tell it worked if the cavity becomes hard and black over time. This treatment may need repeating in 6-12 months. Temporary fillings are coatings that slow decay while treatment in a dental office is being arranged.

We hope to provide services twice this school year. This permission form is for both visits.

Student's Name _____ School _____

M__ F__ Date of Birth ___/___/___ Grade _____ Teacher _____

Parent or Guardian: _____ Address: _____

Day phone _____ Cell Phone _____ Best way to reach you? _____

Does your child have a dentist? _____ Last visit to dentist _____ What was done? _____ Next visit? _____

Read the Notice of Privacy Practices.

★ Read and sign this informed consent.

- **I hereby give permission** for the Children’s Dental Network to **treat my child, twice** this school year, with a screening, cleaning, fluoride varnish, sealants, decay-stopping fluoride and temporary fillings as needed.
*Not all types of cavities can be treated at school.
- **I understand that the services provided at school cannot replace regular examination and treatment in a dental office.** I understand that a registered dental hygienist (or senior dental hygiene student from NHTI under direct supervision by Children’s Dental Network) will provide the services.
- **I understand that a photograph** may be taken of my student’s tooth or teeth if my student cannot be identified from the picture.
- **I have read the Notice of Privacy Practices and I further understand** that Children’s Dental Network may share my child’s dental assessment for treatment and payment activities with the school nurse, the supervising dentist, and in the event of a referral for treatment, with dental offices.
- I understand that any diagnoses made by dentists who provide this service at school are done on a voluntary basis. No professional fees are charged and no professional reimbursement is received by any volunteer who participates in the school dental program as a service to community children. I understand that all volunteers are protected with limited liability under NH RSA 508:17.
